February 2020

To tenants at Södra Slevgränd 1–47, 4–222  
and Norra Slevgränd 224–370

## The renovations will start this autumn

As we informed you earlier, we will be renovating your bathroom and your laundry room. We are planning on starting the renovations in autumn 2020. We will start renovating on Södra Slevgränd 47. On the back of this sheet you can see in what order we are renovating. The entire project will take about two years.

### Information meeting

In good time before building work begins, we will also invite tenants to an information meeting where you will be told more about the renovations. It is important that you come to that meeting.

### Questions and comments?
